The great reopening

After a bumpy transition period, we think China's growth will rebound strongly from the second quarter of 2023. HSBC's Jing Liu and Erin Xin examine five key themes to watch.

Deeper domino effects

The global economy ended badly in 2022, based on December's PMI data. Weaker demand is weighing on employment prospects. But, say HSBC's James Pomeroy and Harriet Smith, with help from supply chains, price pressures will reduce.

The Macro Viewpoint

What's next for the global economy and emerging markets

Janet Henry and Murat Ulgen discuss the impact of China's reopening on the rest of the world, the outlook for inflation and central bank policy, and whether emerging market assets can recover some of the deep losses seen over the past two years.
